### 2. Amount Consideration & Value Column

- a. **Consideration** (CON) is the reported payment or recompense for the transfer.
- b. **Actual Value** (VAL) is synonymous with the term **fair market value**, the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts. Actual value may be determined by viewing the following evidence:
  - Certified appraisal of the value of the property being conveyed.
  - HUD-1 or other Settlement Statement providing the purchase price of the property being conveyed.
  - Comparing the reported consideration with the locality's most current assessment.
  - Using the most current Virginia Department of Taxation Assessment Sales Ratio report -- If the median ratio is less than 100% (and that appears to be the case in almost every locality on the Report), this indicates that the assessment for the property type is less than fair market value. In almost every locality, this method will not help the clerk establish a lower actual value than the local assessed value. If the clerk uses this method, the fair market value of the property is calculated by taking the assessed value of the property and increasing it by the resulting percentage for the property group as described above in the example.

- **HB574 – Effective July 1, 2024** – Provides in § 58.1-801, that for purposes of recordation taxes, the value of a property interest conveyed shall be the most recent property tax assessment for such property at the time the property is conveyed.
- The FAS will **calculate on the higher of the two values** when both consideration and actual value are entered on the FAS receipt screen.
- [§ 3-6.01](#) **Deed Processing Fee** (036) charged when there is a state grantee tax (039) assessed under [§§ 58.1-802](#) and [58.1-803](#).
- [§ 58.1-802](#) **State grantor tax** (038), when the consideration or value of interest, whichever is greater exceeds \$100, is based on \$0.25 per \$500 or fraction thereof on the greater of deed consideration or property value. **Local grantor tax** (220) based on \$0.25 per \$500 or fraction thereof.  
**Note:** Only jurisdictions of primary or first recording (JUR=Y) collect state taxes. Jurisdictions of secondary recording (JUR=N) only collect local recordation taxes.
- [§ 58.1-803\(D\)](#) **State grantee tax** (039) for all instruments **except RFDT** is \$0.25 per \$100 value or portion thereof on first \$10 million, \$0.22 per \$100 on next \$10 million, \$0.19 per \$100 on next \$10 million, \$0.16 per \$100 on next \$10 million, and \$0.13 per \$100 value over \$40 million in value. **Local grantee tax** (213) is 1/3 of state amount.  
**Note:** Only jurisdictions of primary or first recording (JUR=Y) collect state taxes. Jurisdictions of secondary recording (JUR=N) only collect local recordation taxes.
- [§ 58.1-803\(E\)](#) **State grantee tax** (039) for the **RFDT instrument** is \$0.18 per \$100 value or portion thereof on first \$10 million, \$0.16 per \$100 on next \$10 million, \$0.14 per \$100 on next \$10 million, \$0.12 per \$100 on next \$10 million, and \$0.10 per \$100 value over \$40 million in value. **Local grantee tax** (213) is 1/3 of state amount.
