Granted Appeal Summary

Case

ARCH INSURANCE COMPANY v. FVCBANK
(Record Number 211050)

From

The Circuit Court of Fairfax County; R. Gardiner, Judge.

Counsel

Richard T. Pledger, Thomas J. Moran, Justin A. Thatch (Wright, Constable & Skeen, LLP), and Eric G. Korphage (Pike & Gilliss, LLC) for appellants.

Edward W. Cameron, Matthew H. Sorensen, and Eric S. Waldman (Cameron/McEvoy PLLC) for appellees.

Assignments of Error

1. The trial court erroneously refused to permit Arch's forensic accounting expert to testify regarding his tracing of the bonded contract funds and use of the lowest intermediate balance rule. This evidence was relevant and material.
2. The trial court erroneously granted FVCbank's motion to strike Arch's evidence on its conversion and unjust enrichment claims. Arch adduced sufficient evidence to carry its prima facie burden as to each cause of action.
