Time To Pay Policy

§19.2-354

One Time To Pay fee of \$10 is assessed to accounts for time to pay past the initial 30 days from court date. The Court can remove \$10 if accounts are paid in full within 30 days of the Court date.

Agreements for time exceeding 30 days will be **one** extension of **6 months** and further only **one** additional extension, after paying at least **\$25**, of up to **6 months**.

Time to pay agreements on past due fines and costs require at least **\$25 down** and will be given **12 months** to pay the remaining balance due.

Persons with fines and costs that are more than two years past due may petition the Court for a new payment agreement.

Persons with restitution extension requests must petition the Court.

*If circumstances prevent timely payment, Clerk will review waivers. These requests will require additional time to pay agreements in writing and may require motions for Judicial approval.
